

## M5 Junction 25 Improvements Scheme

Project Update: 11th June 2019

### Night-Time Work

There's a lot going on at Junction 25 at the moment as we continue works to widen the roundabout. However, you might not have noticed because all the main activities are taking place at night to minimise disruption. Our teams start putting out traffic management from around 7pm (Sunday to Thursday) ready for working from 8pm through to 6am, opening the lanes again before the morning rush hour. The site looks very different at night with the lane closures in place, as the two photos below show.

### Cricket World Cup

ICC CRICKET WORLD CUP  
ENGLAND & WALES  
2019

Griffiths will work to ensure traffic keeps flowing through Junction 25 for the many thousands of supporters visiting for the key Cricket World Cup dates at the County Ground. We're continuing to work at night times only and will schedule our work carefully to avoid impacting on traffic during these dates.
