

Project Bulletin No1 - Introducing the Team

INTRODUCING GRIFFITHS

Griffiths have been appointed as the Main Contractor working on behalf of This is Gravity to deliver the Link Road into the Gravity site, the former 635-acre Royal Ordnance Factory in Bridgwater. Griffiths is a leading civil engineering contractor with a track record stretching back almost fifty years. We construct new roads, bridges and railways as well as maintaining existing assets for both public and private clients. Griffiths have worked in and around Somerset on numerous high-profile schemes including Yeovil Western Corridor and the M5 J25 Capacity Improvements. We directly employ our own local workforce, and anyone interested in joining our team should email southwest@alungriffiths.co.uk with their CV.

THE GRAVITY LINK ROAD

In March 2019, a Growth Deal Funding Agreement was signed between Gravity and the Heart of the South West LEP to award a £3.94m grant to Gravity. The grant will contribute towards the cost of constructing a new access road which will connect the site to the M5 at Junction 23.

Construction of the new access road will commence during summer 2019 with a 12-month construction period. This will be followed by landscaping works, including the creation of a noise bund constructed using material from the remediated main site.

The link road will be a two-lane carriageway incorporating a "Green Bridge". The new access road will tie into the existing road network via two new roundabouts. The start of works on the road marks a key milestone in enabling the development of the Enterprise Zone.

MEET THE TEAM AND FIND OUT ABOUT THE PROJECT

A Drop-In Session to answer any queries on the Project has been arranged for **Thursday 8th August 2019** between **3pm and 7pm** at the **37 Club (TA7 8AD)**. This event gives an opportunity to meet the project team, view the scheme and be advised in more detail of the traffic management phases. Further sessions will be arranged as required throughout the project.
