

21st August 2020

Alun Griffiths (Contractors) Ltd have been appointed by YGC (Gwynedd Council) as the Principal Contractor to carry out work on the Rhostryfan Flood Alleviation Scheme.

As part of the Flood Alleviation Scheme we are currently diverting the existing sewer however, we have experienced unforeseen ground conditions and as a result need to make immediate changes to the current design. These changes will result in the temporary closure of the road at the junction to Bro Wyled in order to allow for a safe working area to undertake these essential works.

Due to the nature of the works and the difficult ground conditions that we are currently experiencing we are unable to give a specific date for the road closure, however this letter is intended to give you advance notice that during the week commencing the 24th August there will be disruption to the movement of vehicles within the area. Every effort will be made to ensure the road is only closed when necessary. There will be a provision for access by emergency vehicles and the junction will be reopened at the end of every working day. It is expected that once the work in this area commences the junction will be closed between the hours of 9am and 5pm. Every effort will be made to notify you of the exact dates.

We apologise for the inconvenience that this work will undoubtedly cause and ask that you contact us as soon as possible should you have any specific access needs during this time. Please be assured that we will be ensuring that the works are done as quickly and safely as possible to allow the junction to be reopened.

Yours sincerely

Mandy Evans
