

M5 Junction 25 Improvement Scheme Project Newsletter: November 2020

Toneway

During the next few weeks, we will be continuing to install the traffic signal equipment, the dressing of the verges and reprofiling to suit the agreed plans.

Blackbrook Bridge

Surfacing works around and over Blackbrook bridge, on the carriageway and footpath, will continue during the next few weeks and is progressing well.

The footpath and cycle lane is well underway, with the anti-slip paving.

We have installed the electrical feeder pillar cabinets for the street lighting and motorway communications along with the ducting for the M5 communications.

M5 Junction 25 Improvement Scheme – November 2020 – Continued

New Nexus 25 Roundabout

We have continued surfacing works on the footpaths including the final surface course and red surfacing for the cycle lane.

White lining along the link road and on the footpaths for pedestrians/cyclists have been laid, along with the tactile paving at pedestrian crossings.

Signs and lighting columns are continuing to be installed along the roads and footpaths.

M25 Gyratory

We have continued installing traffic signal cabling and apparatus in preparation for the commissioning of the new traffic signal controls.

The footpath on the east inner gyratory is well underway and the new CCTV masts have been installed.

Over the next few weeks, we will continue installing high friction surfacing and white lines on the roundabout. This was delayed due to weather.

Drone footage: watch our latest update
